### September is Childhood Cancer Awareness Month

Submitted by Rep. Joe Emrick  
 (R-Northampton)

Noting childhood cancer is the second leading cause of death in children under 15 years of age, the state House passed a resolution last week designating September 2020 as Childhood Cancer Awareness Month.

According to the American Cancer Society, more than 11,000 new cases of childhood cancer will be diagnosed in children under the age of 15 in the United States this year. While major treatment advancements have led to an overall five-year survival rate of 84%, this rate varies widely depending on the type of cancer and other factors.

House Resolution 962 is intended to bring awareness to childhood cancer, to encourage young Pennsylvanians who are fighting cancer, and to honor young people who have lost their lives to childhood cancer. The resolution also expresses gratitude to the doctors and nurses who provide special care to patients and families affected by childhood cancer and encourages all residents in this Commonwealth to join the fight against childhood cancer.

The bill now goes to the Senate for consideration. Questions about this or any legislative issue should be directed to Emrick's district office at (610) 588-8011 or (610) 746-5090.

**Next issue will be printed October 1st.**

### Salary Available for Students in the CNA Program

By Becky Bartlett

Lamont McClure and Gracedale Administrator Jennifer Stewart-King announce a pilot program which will begin in September. Students in the nursing home's Certified Nursing Assistant (CNA) program will now receive a salary of \$250 a week in addition to free tuition for the four-week training program.

"We are being aggressive in re-tooling our Gracedale workforce as we prepare to battle the upcoming cold and flu season," says Lamont McClure.

"This pilot program will open opportunities for people who want to enter the medical profession, but haven't been able to forgo a salary while they get trained," says Jennifer Stewart-King. "Students will be considered contract workers while enrolled in the program, but have the opportunity to get hired into full-time positions once they complete their training."

This change is made possible by CARES Act money which allows for the hiring of staff. Anyone who is interested in applying for the Gracedale CNA program should contact Jessica Leeper at 610-829-3645 or [jleeper@northamptoncounty.org](mailto:jleeper@northamptoncounty.org)

## Easy Apple Crisp

### Ingredients:

- 1/2 cup all purpose flour
- 1 cup old fashioned rolled oats
- 3/4 cup packed brown sugar
- 1 tsp ground cinnamon
- 1/4 tsp nutmeg
- 1/4 tsp salt
- 1/2 cup cold butter, cut into cubes

### APPLE FILLING

- 5 cups thinly sliced granny smith apples (about 4 large apples)
- 1/4 cup packed brown sugar
- 2 tbsp butter, melted
- 2 tbsp all purpose flour
- 2 tsp lemon juice
- 3/4 tsp ground cinnamon
- 1/4 tsp nutmeg
- Pinch of salt

### INSTRUCTIONS

1. Preheat oven to 350 degrees.
2. Add all of the ingredients for the topping, except for the butter, to a medium sized bowl and stir to combine.
3. Add the cold butter and use a pastry cutter or fork to cut the butter into the dry ingredients until the mixture is crumbly and comes together. Set aside.
4. Combine all the ingredients for the apples and stir together so that the apples are well coated, then pour the mixture into an 8 or 9 inch square dish.
5. Sprinkle the topping evenly over the apples.
6. Bake for about 40 minutes, until the topping is golden around the edges and the apples are tender. Allow to cool for about 15 minutes prior to serving.

### Tips for the Best Apple Crisp

Be sure to slice your apples thin so they become fully tender. No crunchy apples in apple crisp. Stick with granny smith apples for best results. Serve homemade apple crisp freshly baked and warm. Top with vanilla ice-cream or caramel sauce and enjoy!

## The Dews of Autumn by Robert L. Martin

Autumn nights and summer days  
Valleys covered in a morning haze  
September air of night time sinking  
Upon the grasses for the drinking

Hot and cold air, an  
autumn mix  
Magicians in the clouds  
of assorted tricks  
Casting their magic upon  
the earth  
A time to play and a time  
of mirth

On the grounds of  
Sorcerer's Paradise  
As the dews of autumn  
turn to ice.

## Jacobsburg Environmental Education Center Community Programs, September 2020

**Outdoor School with Jacobsburg - Thursdays, 8:30am-3:30pm September through November.** You may know Jacobsburg as a place to enjoy public environmental programs for individuals, families, and scouts, but we also serve over 35 different public and private K-12 schools for free throughout the academic year. This year is going to look very different for our schools and their students. Many are not allowing field trips, many are using virtual instruction, and some families are choosing to homeschool for the first time. Whichever way your students are learning this year, Jacobsburg is here to help with standards-based outdoor education in biology, environmental science, earth science, history, and language arts. If your student needs to get outside for an in-person educational experience, give us a call. We are prepared to offer in-person and virtual programs by request to groups of families, as well as schools. We require at least 5 students for a free hour-long lesson and group sizes are limited to no more than 20 people total. Please call to find out more, 610-746-2801.

**Virtual: A Chat About Chickadees and Climate Change - Thursday, September 17th at 7:00pm to 8:00pm.** This program will be held virtually via Skype it will NOT take place face-to-face at the center. You may have spotted small and cute black, gray, and white chickadees at your birdfeeder or while hiking in the woods. What you may not have realized is that the chickadees you've spotted here in the Lehigh Valley could be hybrids--formed when individuals from two different species mate and produce offspring. If you've lived in the Lehigh Valley for several years or more, the chickadees you've spotted recently might be more likely to be hybrids than those that you saw ten years ago! Dr. Amber Rice will talk about research done in her lab at Lehigh University that has shown how climate change is affecting the ranges of chickadees, and possibly leading to increased hybridization. She will also discuss how she's examining some of the consequences of this hybridization on chickadee behavior, and how it may translate into selective pressures acting on chickadees. This is a virtual program. Participants will need to possess an internet capable device with the Skype application installed. Registration is Required.
