Summer Tour Opening**

On Saturday June 16, Quiet Valley Living Historical Farm will open for their 55th Summer Tour Season starting with their eleventh annual Summer Garden Party. Visitors coming to the farm for the historic tour will experience guides portraying family members going about a typical day on a homestead in the 1800s.

At the outdoor brick oven herb breads will be baked and samples shared.

**KILL WEEDS AND REPEL BUGS NATURALLY**  
 By Jackie Talero-Rueda, The Crunchy Mom

Warm weather brings much more than flowers, plants, and green grass. It brings pests to our plants and our body, and weeds to our garden. They are no fun and quite hard to get rid of. So let's start with the weeds. Most of us have used a very toxic weed killer mostly made up of a chemical called glyphosate. Glyphosate is the same chemical used on GMO crops because they were engineered to resist it so it can kill the weeds and not the crop. This chemical is extremely dangerous to the environment and our bodies. It has been linked to Alzheimers, Autism, and cancer to name a few. So please stop using this chemical that is in pretty much all weed killers. Instead opt for a natural homemade weedkiller that is safe for you and the environment like the one I make.

**NATURAL WEED KILLER**

- One gallon sprayer found at any hardware store
- 1/2 gallon of white distilled vinegar
- 1 cup of white table salt
- 1 TBS of blue dawn dish detergent

Mix all ingredients in the sprayer and fill the rest of the sprayer with water. Spray on your weeds on a hot sunny day for best results. You can also use all vinegar and no water for an extra strength version. I love this stuff! Check out my Facebook page for before and after photos.

Bugs are annoying to us because they can eat up our plants and bite and bother our skin. Most insect repellants are also toxic but you can very easily make a natural substitution at home.

**CRUNCHY MOM'S BUG REPELLENT**

- 2 oz Spray Bottle
- Witch Hazel
- Aloe Gel
- Essential Oils of Lemongrass, Citronella, Tea Tree, Peppermint
- Distilled Water

Fill the spray bottle halfway with witch hazel. Add a squirt of aloe gel and 5 drops of each oil. Fill the rest with distilled water and shake well. Test it in a small area of your skin to check for sensitivity. This will moisturize and even disinfect the skin. You can also apply it to your clothing if you are sensitive. Not only does this smell amazing but it will keep bugs away naturally.

Lastly I want to share with you a fruit tree spray I discovered online. I have peach and apple trees in my backyard and I always get pests that eat the leaves and fruit. This spray won't harm the trees, the environment, or our bodies with pesticides. So far so good. I want to share it with you so you can use it on your trees and plants this season.

**ORGANIC TREE AND GARDEN SPRAY**

- 1 gallon sprayer
- 1/4 cup blue dawn dish detergent
- 1 cup vegetable or canola oil
- 30 drops peppermint essential oil

Add all ingredients to the sprayer and then fill the rest with water. Mix well and spray all over the tree leaves and trunk. The vegetable oil suffocates small insects and larvae and prevents infestation. The soap helps coat the leaves. I spray at night or early morning every 2 weeks. I haven't used this on anything other than my fruit trees so use with caution since other plants may be more sensitive.

Enjoy!  
 Jackie

**Brother Sun**

By Robert L. Martin

As the day rises up for the dawning,  
With all the well rested flowers yawning,  
And the mantles yielding to the light,  
Brother Sun comes back from overnight.

As caring brothers do, he lends a hand.  
His work looms ahead as the day began.  
He helps the grass rise up from the soil,  
With all his might as good brothers toil.

As he hides under the blushing skies out west,  
His day is done and he did his very best.  
He worked the day thru'; then he goes to bed,  
Tired from his labor to rest his weary head.

Brother Sun, for all you've done;  
Mother Earth rejoices;  
You're number one.

**Tips for Keeping your Dog Cool and Safe in Summer**

1. Never, ever leave your dog in the car
2. Make sure your dog has unlimited access to fresh water
3. Make sure your dog has access to shade when outside
4. Take walks during the cooler hours of the day
5. When walking, try to stay off of hot surfaces (like asphalt) because it can burn your dog's paws
6. If you think it's hot outside, it's even hotter for your pet – make sure your pet has a means of cooling off
7. Keep your dog free of external parasites (fleas, ticks) and heartworms – consult your veterinarian about the best product for your pet
8. Consider clipping or shaving dogs with long coats (talk to your veterinarian first to see if it's appropriate for your pet), and apply sunscreen to your dog's skin if she or he has a thin coat.

**Love Your Dog, License Your Dog**

All dogs three months or older must be licensed by Jan. 1 of each year. Violators can be cited with a maximum fine of \$300 per violation plus court costs.

If your dog gets lost, a current license is the fastest way to get him back. The small license fee helps the millions of dogs in the state by funding the Pennsylvania Department of Agriculture Bureau of Dog Law Enforcement.

Purchase a license from your county treasurer or issuing agent. Visit [www.licenseyourdogpa.pa.gov/](http://www.licenseyourdogpa.pa.gov/)

**ADOPT US: MOLLIE & GUMP**

**MOLLIE** is a captivating kitty with the most gorgeous buff-blond coloring, right down to her beautiful eyes. Brought to the shelter with her feline siblings due to a heartbreaking change in living arrangements, Mollie is understandably a bit shy. In fact, after careful observation we removed her from the free roaming cat room because all the big-cat personalities were stressing her out. No worries, she is now in her own kitty condo where life is more peaceful and predictable. Still, we know for a fact Mollie lived with other cats and even dogs in her previous home, so don't pass her up if your home includes respectful, welcoming fur-babies. Mollie is 8 years old, spayed, up to date on vaccinations, litter-trained and so ready to bring her warm, gentle personality into your home. Come meet Mollie today!

**GUMP** is the sweetest, fuzziest little guy you'll ever meet on four legs. Brought to the shelter as a stray, poor baby was severely matted with a mouth full of rotting teeth. Following a much-needed dental procedure Gump is now mostly toothless, but full of joy and a zest for living. This pint-sized dream boat loves everyone and everything including kids, cats and other dogs. Even at 13 years young, Gump still has a pep in his step and an infectious grin that will melt your heart like a box of chocolates. Gump loves to go for walks and even does a little dance at your feet when it's time to go out. Gump is 13 years young, neutered, microchipped, up to date on vaccinations and ready to star in his own major motion picture. Come meet Gump, today!

The **AWSOM** Animal Shelter is located at 3129 Godfrey Ridge Drive, Stroudsburg, PA 18360. Adoptions hours are 11AM to 4PM, 7 days a week. Volunteer opportunities are always available. Stop in or call 570-421-DOGS for more information.

The **AWSOM** Animal Wellness Center is open Monday thru Friday for all your basic veterinary needs. Check out our low-cost veterinary services, including spay and neutering, vaccinations, dental care and more. Call 570-424-1060 for more information or to make an appointment.

**The Real Estate Guys**

**Now is the time to Buy & Sell!  
Why...you ask? Several reasons.**

**The DeCesares**

From a Buyers perspective...6 months ago the FHA interest rate was 3 1/2% for a 30 yr loan. Today it is 4 1/4%. With the economy heating up you can guess which way the rates will be going. To put this in perspective on a \$120,000 mortgage your payment is \$53.00 more each month than it would have been 6 months ago.

The next reason is that the inventory of available homes is shrinking. This creates a substantial challenge, especially for first time buyers and those with tighter budgets. The available properties in the lower price ranges has the most demand and the least availability. In the Slate Belt, for example. There are currently 19 homes for sale priced at \$120,000 or less. This month alone 18 have sold. Some of the homes in the lower price ranges simply do not meet the needs of Buyers...therefore the inventory pool is even smaller than the numbers denote.

Another reason...as inventory shrinks prices rise! The combination of higher rates and higher prices add up to even higher monthly payments.

The positive side to this is that the lenders have a little more flexibility to make loans than they have in the recent past. If you are thinking of buying don't know if you are able now is the time to contact a lender to discuss the possibility.

From a Sellers perspective...the opposite of the above is factual. As interest rates increase, Buyers will be limited to less of a mortgage amount than they would have been last year. Prices then, especially in the higher price ranges will not rise as much as they would have if the rates would have remained lower.
